OFFICE OF THE COMMANDANT

U-1031/AIS-2C

8 APR 1983

STAT

[Redacted]  
Executive Director  
Central Intelligence Agency  
Washington, D.C. 20505

Dear [Redacted]

STAT

On behalf of the students, faculty and staff of the Defense Intelligence College, I am pleased to confirm arrangements made by [Redacted] concerning your forthcoming address on "The Future of the Intelligence Community." Your presentation is scheduled for two hours on Monday, April 25, 1983, beginning at 1:30 p.m.

STAT

Your presentation is a key part of the National Senior Intelligence Program (NSIP) which is conducted once a year at the Defense Intelligence College. The NSIP is the senior course offered by the College and is aimed at the individual in positions of management and/or policy. In this 8-week program we try to make the student aware of issues and concepts in intelligence and the forces affecting national intelligence policies. This class will consist of approximately 30 experienced intelligence professionals (O-4/O-5s and GS-13/GS-14s) from NSA, FTD, DIA, INSCOM, USMC, AFIS, and EUCOM.

We are most interested in your observations about policy implementation in the Intelligence Community, the outlook for the influence of the Intelligence Community on decision making, and the role of the analyst and the pressures he or she can expect to encounter. As mentioned by [Redacted], however, the range of topics can be as broad as the students' questions. A copy of the Plan of Instruction for NSIP will be sent to you at a later date.

STAT

In addition to the NSIP students, approximately 70 students enrolled in the Postgraduate Intelligence Program (PGIP) and various faculty members will be invited to be present as part of the Enrichment Lecture Program. Monday afternoons have been set aside by the College for lecture-discussions by prominent individuals, and we are indeed fortunate to have your presentation serve this dual purpose.

[Redacted] will make any specific arrangements your appearance may require.

STAT

T109

I am indeed most grateful for your interest in the Defense Intelligence College and your willingness to share your experience with our students. I am eagerly looking forward to meeting you on April 25, immediately prior to your address.

Sincerely,

Colonel, USAF  
Commandant
